

# The National Energy and Public Utilities Regulatory Commission of Ukraine: Recent developments

## 49 ECRB meeting

---

**Oleksii Magda**

NEURC Commissioner  
Ukraine

# ENTSO-E Integration: progress so far

The **Agreement on** future “Ukrenergo” (TSO) **synchronization with ENTSO-E** is being implemented according to the Roadmap:

- Isolated mode tests will be started in 2022 as planned
- Synchronization to be finalized in 2023

## **Acquis implementation:**

- EU Regulation 714/2009 is implemented - NEURC approved the Rules for cross-border interconnection capacity allocation and the congestion management
- Full implementation of EU Regulations 2016/631, 2016/1388, 2016/1447 is underway
- Next step - implementation of EU Regulation 2015/1222 - will allow the Ukrainian market to join the mechanism of market coupling

# Preliminary decision on "Ukrenergo" Certification

**Preliminary decision on "Ukrenergo" Certification** as a TSO for electricity (ISO model) is adopted by NEURC on 2 June 2021.

- On July 28, 2021 the Government issued Resolution No. 833-r that transfers the authority to manage corporate rights and state property owned by "Ukrenergo" from the Ministry of Finance to the Ministry of Energy
- The transfer is not yet finalized
- NEURC will reconsider the Preliminary decision in case of any changes happened and inform the Secretariat

# Thank you!

---
