

REGULATORY DEVELOPMENTS IN SERBIA

December 03, 2020 – April 14, 2021

Dejan Popović
Council President

THE ENERGY AGENCY OF THE
REPUBLIC OF SERBIA

48th ECRB MEETING
Webex, April 14th, 2021

Regulatory developments in Serbia #1

03/12/2020 – 14/04/2021

NEW ELECTRICITY PRICES APPROVED

Upon the request of the PE EPS Beograd, on the session held on **December 17, 2020**, the Council of the Energy Agency of the Republic of Serbia has adopted a **Decision on guaranteed electricity supply price**.

The **average electricity price** charged to customers entitled to **guaranteed supply** at regulated prices (households and small customers) is **established on the basis of maximum allowed revenue** and it amounts to 7.867 RSD/kWh without taxes and duties. It is by 3.4% higher than the ruling average price.

New guaranteed electricity supply price is **applicable** as of **February 1, 2021**.

03/12/2020 – 14/04/2021

AERS COUNCIL DECISIONS IN FIELDS OF ELECTRICITY TRANSMISSION AND DISTRIBUTION

On the session held on **December 24, 2020**, the Council of the Energy Agency of the Republic of Serbia has adopted **Decisions on amendments to the Methodology for Setting Price of Electricity for Guaranteed Supply, Methodology for Setting Electricity Distribution Use-of-System Charge and Methodology for Setting Electricity Transmission Use-of-System Charge.**

24/12/2020

These amendments provide for the extension of the period during which customers, i.e. electricity transmission and distribution system users can take the opportunity to have lower level of approved power charged without amendments to the decision on the connection approval. This option is limited until December 31, 2022.

On the same session, upon requests of EMS JSC Belgrade, and of the distribution system operator “EPS Distribucija” LLC Belgrade, the AERS Council has **approved the increase of electricity transmission use-of-system charge by 10% and³of electricity distribution use-of-system charge by 5.52%.**

Regulatory developments in Serbia #2

03/12/2020 – 14/04/2021

APPROVAL OF TRANSPORTGAS SRBIJA GAS TRANSMISSION SYSTEM DEVELOPMENT PLAN

On the session held on **December 31, 2020**, the Council of the Energy Agency of the Republic of Serbia has adopted a **Decision on the approval of 2020-2029 Gas Transmission System Development Plan** which was adopted by the Transmission System Operator - Transportgas Srbija.

The Ten-Year Transmission System Development Plan was developed **in line with the Energy Law**, with the **Energy Sector Development Strategy** of the Republic of Serbia until 2025 with projections until 2030 and with the **Strategy Implementation Program**. Investments which are planned to be realized in a three-year period are integral part of the Plan.

The connection with the new gas pipeline crossing the territory of the Republic of Serbia and connected with the transmission systems in the Republic of Bulgaria and Hungary was also considered during the Plan development phase.

03/12/2020 – 14/04/2021

2021 POWER SYSTEM CHARGES AND ANCILLARY SERVICES CHARGES ESTABLISHED

In line with the Energy Law (“Official Gazette of RS”, No. 145/14), on **January 21, 2021**, the Council of the Energy Agency of the Republic of Serbia has adopted a **Decision on 2021 Power System and Ancillary Services Charges**.

This Decision sets charges of capacity reserve for system services, i.e. secondary and tertiary control which are necessary for the provision of secure, reliable and stable operations of the power system, i.e. for frequency regulation and exchange capacity, as well as ancillary services for the regulation of voltage and reactive power and the price of black start.

03/12/2020 – 14/04/2021

PUBLIC CONSULTATION: 2021-2030 REPUBLIC OF SERBIA TRANSMISSION SYSTEM DEVELOPMENT PLAN

On **March 18, 2021**, the Energy Agency of the Republic of Serbia has **announced Public Consultation on the 2021-2030 Republic of Serbia Transmission System Development Plan**, which was submitted to the Agency by the Transmission System Operator EMS JSC.

Public consultations on this draft of the Ten-Year Transmission System Development Plan are realized until 16/04/2021.

In line with the Energy Law, the Transmission System Operator adopts a Ten-Year Transmission System Development Plan every year and submits it to the Agency for approval purposes. Within the approval award procedure, the Agency organizes Public Consultation on the Plan.
